

I am writing to express my concerns regarding the radio station K-LOVE. It has been brought to my attention that the FCC is introducing a new broadcast service known as Low Power FM (LPFM). I have been told that it is the FCC's proposal to expand this service in a way that would allow the station LPFM to take priority over stations such as K-LOVE.

My main concern is that K-LOVE could be forced off the air if the new proposal passes. I feel that this would adversely affect me. I strongly believe that K-LOVE has had a positive impact on me and my community. I know that several thousands of people listen to K-LOVE each day. I am a financial supporter of K-LOVE and plan to continue to be one. I know that many advocates of LPFM feel that there is little value of radio stations such as K-LOVE, but I feel that K-LOVE has much value and that a station such as LPFM would have very little value to me and my community.

K-LOVE promotes and supports wholesome values and has a positive encouraging impact on communities all accross America. Please do not allow this station to have the potential to be taken off the air.

Thank you.
